

# Employment support guidance for international students

Scholarships  
will be offered

for

International  
Students

## Japanese companies look forward to working with you!

Kanazawa University provides international students with educational programs to find employment in Japanese companies. Students are required to start employment activities while in school. Taking these programs will enable students to plan their schedules for recruitment activities and also acquire skills and abilities necessary for finding employment.

A briefing session will be held as follows.  
International students are encouraged to attend.

# -“Kagayaki-Tsunagu” Hokuriku – Shinshu Employment Promotion Program for International Students-

## Employment support guidance for international students

“Find employment at Japanese companies? Let us help you!”

The third-year undergraduate students and the first-year graduate students generally start looking for their jobs in March in Japan. Setting the goal and proceeding with the planning for job hunting is the key to success. Educational programs provided by Kanazawa University will enable the job-seeking students to enhance abilities and skills for finding employment in Japan. The programs have practical training such as writing resumes or job application forms to pass document screening. They also help students to acquire knowledge about the typical Japanese companies and the working styles through experience. Draw a vision of your future, look for a company you want to work for and succeed in finding employment at Japanese companies!

### Contents of the educational programs

Kanazawa University provides international students who are interested in employment by Japanese companies with the following three programs:

- 1. Business Japanese Language Education Program**
- 2. Education Program to carve one's career path**
- 3. Internship Program at Japanese companies**

A briefing session will be held as follows. International students are encouraged to attend.
